

Allium x 'Chivette' PP#30,151

Another fabulous introduction bred by lifelong horticulturist, Brent Horvath, from Intrinsic Perennial Gardens

Brought to you by ... GardenChoice™

- A mostly sterile chive, with healthy green foliage all season long.
- Initially upright, but then more relaxed, reaching 12-15" + long.
- Lavender purple flowers with a purple stripe down the middle of the pedal on 12" + stems.
- Beginning as round buds, the flower opens to 1" wide.
- Full sun preferred.
- Flowers and foliage are edible.
- This vigorous plant is easy to grow.

Bare Root Clumps - \$1.78 each plus \$.15 royalty in boxes of 100
